

CREATIVE LOGISTICS & VISUAL IDENTITY LEAD

Interactive Session Deck · ~4 slides

WHAT YOUR SUBMISSION MUST COVER

- Design a ~4-slide interactive presentation, in PowerPoint or Canva, formatted to hold children's attention and deliver a clear educational benefit by the end — not entertainment alone.
- Build it around a daily-life problem these underprivileged children face, the way a module does, and end on an activity with a tangible benefit.
- Think of a creative concept and put forward your best execution.
- We are looking for a creative concept, a clean and simple layout, and a finished deck rather than a half-built idea.

SUBMISSION REQUIREMENTS

- Complete only the task for the head you applied to.
- You may use bullet points, tables, diagrams, or sketches where appropriate.
- Your work should be clear, organized, and practical. Creativity is encouraged where relevant.
- You can use AI as a tool, but not the other way around.
- Submit at <https://resala-auc.github.io/task/> at least one hour before your interview.
- Share a link anyone at Resala can open — Google Drive, Canva, or a PDF link.
