

COMMITTEE BRIEF FOR THE RECRUITMENT POST

Every committee open this cycle, what it does, and the head roles inside it. Written to be lifted straight into the post — the "post hook" line under each committee is the one that speaks to an applicant.

6 committees

25 head roles total

Interviews 4 Aug – 15 Aug

Applicants pick a **1st and 2nd** choice

2 committees ask for a task

THE STEP OF SYSTEM

6 heads

60 min interview

TECH TEAM

Builds systems, automations, dashboards, forms, and workflows that make Resala easier to manage.

POST HOOK

You see messy processes and naturally think: we can build a system for this.

The Navigator

PROJECT LEAD

Full ownership of tech projects: keeps the system on track and the deadlines real.

The Builder

DEVELOPER

Turns the plan into working software, documented well enough someone else could pick it up.

The Closer

DEPLOYMENT SPECIALIST

Delivers the handover, trains the client, and checks back until they don't need you.

The Scout

SOLUTIONS RESEARCHER

Evaluates requests and weighs every possible solution before the team commits to one.

The Verifier

QUALITY TESTER

Tests against what the client actually needed, not just whether it runs.

The Firefighter

ON-CALL RESPONDER

First one in when something already live breaks. Works fast, stays calm.

OPERATIONS

Turns plans into reality through logistics, vendors, supplies, setup, tracking, and on-ground problem-solving.

POST HOOK

You are practical, flexible, and willing to handle pressure before and during events.

The Planner

REQUEST & PLANNING

Receives every request, clarifies what's actually needed, builds the timeline before anyone else touches it.

The Negotiator

PROCUREMENT & VENDORS

Finds vendors, compares prices, and keeps every purchase inside budget.

The Organizer

INVENTORY & STORAGE

Owens the inventory: what exists, where it is, and whether it's ready when someone needs it.

The Coordinator

LOGISTICS & EVENT SUPPORT

Runs transport, setup, and teardown — the reason an event actually happens on time.

BRANDING / MEDIA

Builds Resala's public image through storytelling, campaigns, design, media, reels, and consistent visual identity.

POST HOOK

You want to build campaigns, lead creative work, and make Resala's impact visible to the world.

Head of Projects

Runs the workflow end to end: takes every request, assigns it, keeps every stage moving so nothing sits waiting on someone who forgot.

Head of Graphic Design

Owens how Resala looks: posters, feed, carousels, and the visual identity that makes every post recognizably ours.

Head of Acting & Production

Owens filming day: casts, scripts, directs, and makes sure every shot on the list gets captured.

Head of Video Editing

Turns raw footage into reels and documentaries — one consistent style, on deadline.

HR

Keeps the community alive through engagement, onboarding, feedback, belonging, recognition, and accountability.

POST HOOK

You want to bring people back into the mission and keep the team connected.

Engagement Head

THE CONNECTOR

Plans the activities that make volunteers want to stay: team-building, feedback, the sense that Resala is a place, not a task list.

Tracking System Head

THE ORGANIZER

Keeps the volunteer database and attendance honest, and turns raw data into reports the club's decisions can stand on.

Inclusion Head

THE ADVOCATE

Makes sure every volunteer can actually participate — accessibility, international students, whoever the default setup leaves out.

Recognition & Accountability Head

THE FAIR JUDGE

Makes sure effort gets seen and gaps get addressed — fairly, every time.

PR / FUNDRAISING

Opens doors through external relationships, collaborations, aligned sponsors, partnerships, and fundraising strategy.

POST HOOK

You enjoy opening doors and turning communication into partnerships, sponsorships, and support.

Sponsorship Head

Finds and approaches sponsors, builds the pitch, keeps the relationship alive after the check clears.

Partnerships Head

Builds club collaborations and awareness campaigns that bring in reach Resala couldn't get alone.

Events Head

Plans and runs every fundraising event and donation campaign end to end.

VISITS

Plans direct visits that fill real gaps through presence, goals, volunteer preparation, and respectful community contact.

POST HOOK

You are flexible, organized, and ready to deal with people and places outside the AUC community.

Discovery Head

Assesses need before a visit happens: gathers information, writes the reports that shape the plan.

Impact Head

Evaluates what a visit actually changed: feedback, outcomes, what to fix next time.

Execution Head

Plans and runs the visit itself: volunteers, activities, the day going smoothly.

Storytelling Head

Captures and shares the visit — photo, video, story — without turning a family into content.

Interview length differs by committee — noted on each card. Only Branding / Media and Visits ask applicants to prepare something in advance.
