

ENGLISH SESSIONS LEAD

English Lesson Deck · ~4 slides

WHAT YOUR SUBMISSION MUST COVER

- Structure an interactive ~4-slide deck for intermediate-level students — they already understand questions like “What is your name?” or “How old are you?”.
- Teach key concept vocabulary alongside an appropriate grammar lesson (should / shouldn't, imperative verbs, and the like).
- Choose a real-life problem these students face and build the lesson around it. For water pollution: words like pollution, trash, health, affect, then “You shouldn't pollute the water” or “You should reduce water pollution”.
- We are looking for clear sequencing, age-appropriate language, and a lesson that teaches through activity rather than a lecture.

SUBMISSION REQUIREMENTS

- Complete only the task for the head you applied to.
- You may use bullet points, tables, diagrams, or sketches where appropriate.
- Your work should be clear, organized, and practical. Creativity is encouraged where relevant.
- You can use AI as a tool, but not the other way around.
- Submit at <https://resala-auc.github.io/tasks/> at least one hour before your interview.
- Share a link anyone at Resala can open — Google Drive, Canva, or a PDF link.
