## 1

## ROLE DESCRIPTIONS

*What an outsider needs to read to understand each role*

| ROLE                                                 | DESCRIPTION                                                                                                                                                                                                                                          |
|------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Creative logistics &amp; Visual Identity Lead</b> | Leads the Creative & Design Committee: turns every session's content into polished, kid-friendly slide decks a full module ahead of time, designs certificates and event visuals, and keeps Operations stocked with exactly what each session needs. |
| <b>English Sessions Lead</b>                         | Leads the English Committee: adapts each module's content into interactive English lessons, vets and prepares volunteer instructors through mock-teaching auditions, and makes sure homework is assigned and graded every week.                      |
| <b>Teaching &amp; Organizing Lead</b>                | Leads the Teaching & Organizing Committee: runs live Saturday sessions, staffs and supports facilitators, tracks attendance and behavior in real time, and keeps parents in the loop.                                                                |

**General Notes for Better Understanding:** This year, we are adopting a new methodology when teaching these children. The module concept: every ~4 sessions are interconnected and build upon each other (each module will tackle a specific problem that these students face in their daily lives)

**General Note:** You can use AI as a tool, but not vice versa.

## 2

## APPLICATION QUESTIONS

*One fixed set, asked of every applicant*

- 1 What do you know about Resala and why did you choose this program (children's day) specifically?
- 2 Roughly how many hours a week can you genuinely commit, and for how many weeks?
- 3 Do you had a leadership experience before? If yes tell us about a project or team you led — what was your role, and what did you decide on your own?
- 4 Have you ever had to make a decision your team disagreed with? What did you do?
- 5 Describe a time you sacrificed something (time, comfort, a personal plan) for a team or cause. What did you give up?
- 6 What's a limit or weakness you're aware of in yourself, and how do you work around it?
- 7 What relevant skills or experience do you bring to this specific role (design, teaching, or operations)?

*Per-Head Interview Questions*

**Head 1 (Creative logistics & Visual Identity Lead):**

- Walk me through how you would organize your committee to design 15+ interactive slide decks in three weeks while keeping quality high.
- How will you handle a situation where the Operations team informs you 24 hours before a session that your requested materials are unavailable?
- In Module 3, your committee's design workload drops, and members must step into classroom volunteer roles. How will you prepare and motivate them to transition smoothly into teaching and organizing?
- How do you balance giving constructive feedback on a member's slide design without discouraging their enthusiasm?

**Head 2 (English Sessions Lead):**

- If you notice during a session that an English instructor did not review the slides beforehand and is struggling to lead the activity, how do you handle it on the spot and after the session?
- What specific criteria will you look for when conducting a mock-teaching audition to decide if a candidate is fit to teach children?
- How will you ensure that instructors consistently collect and grade 20+ student assignments every week without feeling overwhelmed?
- Volunteers can grow frustrated when working with rowdy or distracted children. How do you coach your team to maintain patience and positive reinforcement?

**Head 3 (Teaching & Organizing Lead):**

- How will you ensure that every classroom maintains a minimum ratio of 3 facilitators per 20 students if multiple volunteers fail to show up on Saturday morning?
- A child has accumulated 4 negative points and is exhibiting disruptive behavior in class. How do you guide the facilitator to handle the child patiently while enforcing rules fairly?
- How do you structure parent outreach so that calls to mothers provide constructive feedback rather than sounding like complaints?
- How do you keep classroom facilitators energized and prevent the session from becoming boring or repetitive for the children?
- How will you prevent significant volunteer drop-off and attrition by the end of the semester?

## 3

## INTERVIEW SLOTS

Interview windows — 5 to 8 August— each day have it own time slots

| DAY       | SLOT TIMES                                                                                                    |
|-----------|---------------------------------------------------------------------------------------------------------------|
| Wed 5 Aug | 12:00 PM, 1:00 PM, 2:00 PM, 3:00 PM, 4:00 PM, 5:00 PM, 7:00 PM, 10:00 PM, 11:00 PM                            |
| Thu 6 Aug | 12:00 PM, 1:00 PM, 2:00 PM, 3:00 PM, 4:00 PM, 5:00 PM, 6:00 PM, 7:00 PM, 8:00 PM, 9:00 PM, 10:00 PM, 11:00 PM |
| Fri 7 Aug | 3:00 PM, 4:00 PM, 5:00 PM, 6:00 PM, 7:00 PM, 8:00 PM, 9:00 PM, 10:00 PM, 11:00 PM                             |
| Sat 8 Aug | 3:00 PM, 4:00 PM, 5:00 PM                                                                                     |

*Note: If you cannot find a suitable time slot, contact us at +20 101 634 3158 or +20 10 4095 1037.*

## 4

## TRIAL TASKS

*One task per role, given at or just before the interview*

A 15–30 minute task per role, scored under "Skills" in Part 5. It's not about a perfect answer — it's whether they can actually do the core of the job.

## CREATIVE LOGISTICS &amp; VISUAL IDENTITY LEAD

**Task**

Design a ~4-slide interactive presentation (PowerPoint/Canva) formatted specifically to hold the attention of children and deliver a clear educational benefit by the end—not just entertainment. Think of a creative concept and put forward your best execution! (As discussed in the general notes: we will try to solve a daily-life problem these underprivileged children face per module using activities that have tangible benefits in the end).

**What we're looking for**

A creative concept, a clean and simple layout, and a finished 3-4 slide deck rather than a half-built idea.

## ENGLISH SESSIONS LEAD

## Task

Structure an interactive ~4-slide deck suitable for Intermediate-level students (who have a solid baseline foundation and can understand basic questions like *"What is your name?"*, *"What color is your shirt?"*, *"How old are you?"*) to teach key concept vocabulary alongside an appropriate grammar lesson (e.g., *should / shouldn't*, imperative verbs, etc.). Choose a suitable real-life problem you think these underprivileged students face and create an English lesson presentation that helps enrich their vocabulary around this concept, along with a suitable grammar lesson (e.g., about water pollution: create a set of words like *pollution*, *trash*, *health*, *affect*, etc., and use *should / shouldn't* to help them say *"You shouldn't pollute the water"* or *"You should reduce water pollution"*).

## What we're looking for

Clear sequencing, age-appropriate language, and a lesson that teaches through activity rather than a lecture.

## TEACHING &amp; ORGANIZING LEAD

## Task

**Parent Outreach Scripts:** Write two brief phone scripts/guidelines (~150 words each) for a facilitator calling a mother:

- **Script A:** For a child who accumulated 3 negative points during the session.
- **Script B:** For a child who appeared excessively sleepy, unfocused, and kept falling asleep throughout the day.
- **Requirement:** Both calls must balance firm behavioral feedback with empathy and positive encouragement.

**Operations Emergency Scenario:** The Operations team notifies Head 1 on Friday night that the budget/supplies for a planned craft activity (e.g., colored clay, wooden sticks) cannot be delivered for Saturday morning. Write a 200–250 word contingency plan detailing how you will manage and run the activity smoothly without disruptions.

**Placement Conflict Scenario:** A child was placed in the Beginner English Track following their baseline test, but their parent demands they be moved to the Intermediate Track, believing their child is being held back. Write a 200-word response outlining how you will communicate with the family using a diplomatic, friendly, and reassuring approach.

## What we're looking for

Decisive, step-by-step action plans that immediately solve live scenarios rather than just listing concerns. Candidates must show operational composure under pressure to protect classroom safety, volunteer ratios, and team morale. Furthermore, they need diplomatic, empathetic communication that maintains firm behavioral boundaries while treating mothers as respected partners.

## 5

## SCORING &amp; FLOW

*One rubric, one shared bar, for the whole committee*

## THE SCORING

Four sections, weighted to total 100. Written criteria keep two interviewers from scoring the same applicant differently.

| SECTION                                | WT. | HOW YOU SCORE IT                                                                                                                                                                                                                                |
|----------------------------------------|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Ownership</b>                       | 15  | <p><b>Strong</b> gives a real example of putting the team above personal convenience — stayed late, covered a gap, gave up something to see it through.</p> <p><b>Weak</b> speaks only in intentions or promises, with no concrete example.</p> |
| <b>Leadership</b>                      | 30  | <p><b>Strong</b> describes one specific decision or conflict they handled, and owns the outcome, good or bad.</p> <p><b>Weak</b> talks about leadership in the abstract, or credits every decision to someone else.</p>                         |
| <b>Self-awareness &amp; commitment</b> | 15  | <p><b>Strong</b> names a real limit and how they manage it, and is specific about the hours and weeks they can commit.</p> <p><b>Weak</b> claims to have no weaknesses, or is vague about availability.</p>                                     |
| <b>Skills</b>                          | 40  | <p><b>Strong</b> shows concrete proof tied to what the role actually owns — a design sample, teaching experience, or event-ops experience.</p> <p><b>Weak</b> shows general enthusiasm with nothing concrete behind it.</p>                     |

## THE FLOW

We're using a fixed list—the seven questions from Part 2, asked in the same order to every applicant, with brief follow-ups only for clarity. It's easier to compare and score fairly than an anchor-question approach, especially across a large applicant pool. In addition, the task in Part 4 carries high weight in the skills section. We are also using specific questions for each role to understand better how they can adapt to it.

All seven fixed questions come first, then 10-20 minutes to review at the end for role-specific curiosity questions and viewing his/her task (a design sample, a mock teaching moment, or a logistics scenario, depending on the role).

The same 15 / 30 / 15 / 40 weights apply across all three roles
